

SAF Day 2025 – Talking Points

1

[Notes for Commanders / Facilitators]

Introduce the topic and title of the presentation.

- Annually on 1st July, SAF servicemen and women commemorate SAF Day and reaffirm our loyalty and commitment to Singapore.
- The aim of this resource package is to:
 - Highlight the need for a competent SAF that is committed and stands ready to defend Singapore;
 - Profile the SAF's full-spectrum capabilities and operational readiness;
 - Highlight the crucial role of national service (NS) and emphasise why we need to support NS
 - Encourage public/servicemen to express recognition for the contributions of national servicemen and women; and,
 - Remind everyone that they play a part in Total Defence which is an undergirding strength in the defence of Singapore.

[Note: Commanders/ facilitators are encouraged to screen Minister for Defence's SAF Day 2025 video message. If the engagement session takes place after 1 July 2025, please arrange to screen the video at a suitable time or share the link with your audience.]

“ **Every day of peace is a testimony that the SAF has done its job.**

As you know, we are in a changing world. There are new challenges, new disruptions caused by technology, new forces that we have to contend with.

"This is also why we have to come up with new ways to overcome our challenges. And the very nice thing (...is) from what I've seen, the SAF is not resting on its laurels.

I'm very happy to see the SAF constantly re-examining the way it does its operations, and that gives me confidence that we'll be in good stead in time to come. ”

Minister for Defence, Mr Chan Chun Sing
Speaking to the media during his first visit to high-readiness SAF units,
27 May 2025

[Notes for Commanders / Facilitators]

- Today, our region faces growing uncertainties: geopolitical tensions, hybrid threats, and digital disruptions. Against this backdrop, the SAF's role remains vital.
- The SAF, including our NS system, deters aggression and safeguards our sovereignty.
- Conflicts may seem far away, but as seen in **events near our region** and **online influence operations**, Singapore is not immune.
- Our **response readiness**, strong **diplomatic ties**, and credible deterrence allow Singapore to uphold peace, stability, and independence.

For the last 60 years, the SAF has safeguarded our sovereignty and continues to give strength to our nation.

Let's take a look at our humble beginnings...

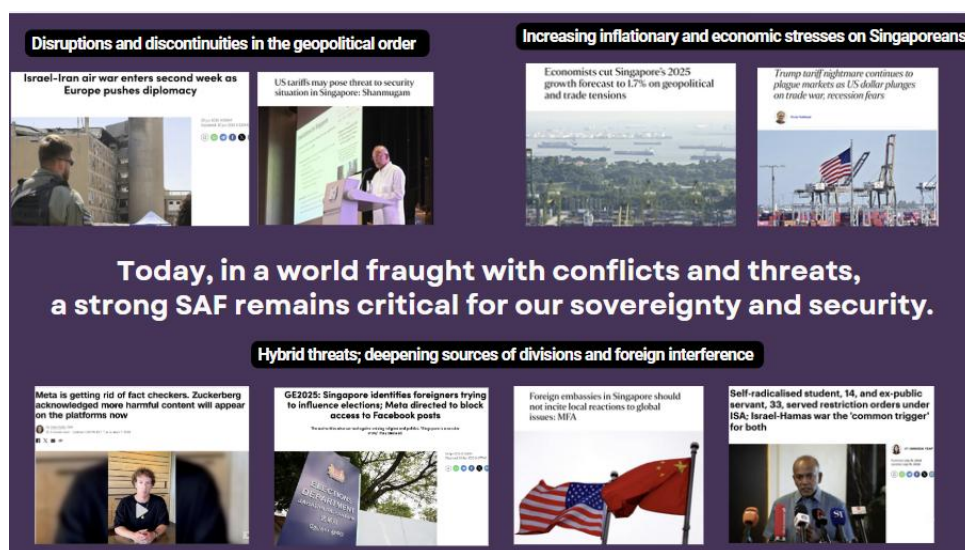

[Notes for Commanders / Facilitators]

- 2025 marks 60 years of the SAF, commemorating six decades of commitment and dedication in safeguarding Singapore's sovereignty and security.
- It is a time to reflect on how far we've come and the role each of us plays in keeping Singapore strong and secure.

[Notes for Commanders / Facilitators]

- Commanders/ facilitators are encouraged to screen this video in full.
- We stand ready, supported by the people, and strengthened by innovation and unity.

[Notes for Commanders / Facilitators]

- Take a look at these headlines. This is our operating context and the reality Singapore faces every single day.
- On 13 June this year, Iran and Israel entered into open armed conflict. On 22 June, the US announced that it has conducted strikes on three key Iran nuclear facilities, with Trump saying that the US could launch more attacks. With this, the US joins Israel in the biggest Western military action against Iran since its 1979 revolution. Tehran has threatened to retaliate, with its parliament approving a move to close the Strait of Hormuz on 23 June. Though this requires higher level approval within the Iranian government, this could lead to a significant increase in global oil prices.

OFFICIAL (OPEN)

- There has been a unified wave of diplomatic and political pressure urging for restraint and de-escalation of the conflict in the Middle East.
- **[Note:** *As the situation is still unfolding, it is recommended that Commanders / Facilitators stay tuned to facts on the latest developments via Singapore mainstream media (e.g. Straits Times / Channel News Asia) as well as any official updates on Singapore's positions via MFA's Newsroom, Nexus' Connect Telegram, or gov.sg sources.***]**
- Beyond headlines about armed global conflicts, Singapore faces economic headwinds and increased inflationary pressures. As a small country and open economy, global developments will impact us, whether directly or indirectly.
- The battlefield we have to fight in has also changed. Threats today aren't just tanks and jets crossing borders, disruptions to our water supply, or impact to our economic and fiscal sustainability; they may be much more subtle, insidious and harder to spot. A major threat we need to actively lookout for is Foreign Interference and Influence.
- The SAF needs to prepare well to meet the new challenges ahead to protect our sovereignty and way of life. This is only possible with public support for defence and everyone playing their part.

REFLECTION

- What do you know about these major crises or security threats?
- How do they affect Singapore or our way of life?
- What do you think are the key roles that the SAF plays in keeping Singapore safe and secure?
- How does our unit play a role?

[Notes for Commanders / Facilitators]

[Give the audience some time to reflect upon the questions and invite them to share their views.]

- Before proceeding to the next slide, emphasise that a credible and strong SAF gives Singapore the ability to deter potential aggressors and manage external pressures using diplomacy.
- Reiterate the role that the unit and the servicemen and women play.
- Take the chance to thank them for their contributions.

[Notes for Commanders / Facilitators]

- How does the SAF stay competent and operationally ready to defend Singapore?

1

COMMITMENT

Through realistic and effective training & strengthening diplomatic ties

Some examples of exercises and fora:

➤ **Defence Cyber Marvel (DCM4) - Multilateral Cyber Defence Exercise**

24-28 Feb 2025: More than 1,000 personnel from 27 nations took part in a defence exercise which simulated cyber attacks.

➤ **Exercise Tiger Balm 2025**

5-16 May 2025: The longest-running bilateral exercise between Singapore and the USA - during which soldiers ran through combat exercises and other drills, including urban warfare drills in SAFTI City.

➤ **Singapore hosts 23rd FPDA Defence Chiefs' Conference**

29 May 2025: Defence Ministers pledge to build trust and interoperability among the militaries of member countries.

➤ **Exercise Griffin Cakti with Indonesian National Defence Forces (TNI)**

2-4 June 2025: The bilateral Counter-Terrorism Field Training Exercise comprised elements from naval, air, cyber and special operations units.

[Notes for Commanders / Facilitators]

[Commanders / facilitators may use your own examples to showcase how the SAF stays competent and operationally ready to defend Singapore.]

- On the digital front, the Digital and Intelligence Service (DIS) participated in the fourth edition of Defence Cyber Marvel (DCM4), a multilateral cyber defence exercise conducted by the British Army Cyber Association. This year's exercise, held from 24 to 28 February 2025 in Seoul, South Korea, saw the participation of over 1,000 personnel from 27 nations.

[Read more here: https://www.mindef.gov.sg/news-and-events/latest-releases/1mar25_nr1]

OFFICIAL (OPEN)

- The SAF's participation in bilateral and multilateral exercises such as Exercise Tiger Balm 2025 and Exercise Griffin Cakti further enhanced bilateral coordination and combat readiness, interoperability, friendship and mutual understanding amongst participating forces.
[Read more here: https://www.mindef.gov.sg/news-and-events/latest-releases/16may25_nr1]
- At the 23rd FPDA Defence Chiefs' Conference, Singapore reaffirmed its commitment to regional defence cooperation and trust-building.
[Read more here: https://www.mindef.gov.sg/news-and-events/latest-releases/29may25_nr1]
- These engagements reflect the SAF's integrated approach across services and domains, and its strong partnerships with regional and global militaries.

1

COMMITMENT

Respond readily and effectively when called upon to protect Singapore's interests and the people of Singapore

Some examples of operational readiness:

➤ **RSAF scrambles two F-16s after Malaysian copter flies near Changi Airport: 20 flights delayed**

9 Aug 2024: After ensuring that our security was not compromised, the F-16s were subsequently stood down.

➤ **RSN leverages technology to respond to wide range of threats**

21 Nov 2024: RSN ready to respond to a wide range of traditional and non-traditional threats, keeping in line with the evolving nature of conflicts.

➤ **SAF exercises Ops Readiness across all Services**

27 May 2025: Minister for Defence Mr Chan Chun Sing visited high readiness units from Army, RSN & DIS, and RSAF's Ex Rover to observe their routine readiness training.

[Notes for Commanders / Facilitators]

[Commanders / facilitators may use your own examples to showcase how the SAF stays competent and operationally ready to defend Singapore.]

- The SAF remains steadfast in its mission to respond swiftly and effectively whenever Singapore's interests or people are at risk. Across all Services, the SAF regularly conducts ops readiness exercises, honing our ability to mobilise, respond and protect Singapore at a moment's notice.
- In one example of operational readiness, the RSAF scrambled two F-16s when a Malaysian helicopter flew near Changi Airport—promptly securing our airspace.
[Read more here: https://www.mindef.gov.sg/news-and-events/latest-releases/18sep23_pq2]
- At sea, the RSN continues to leverage technology to counter both traditional and non-traditional threats, ensuring 24/7 maritime security.
- [Read more here: https://www.mindef.gov.sg/news-and-events/latest-releases/04feb25_fs#:~:text=The%20RSN%20constantly%20enhances%20its%20capabilities%20to%20o,waterways%2C%20alongside%20our%20national%20maritime%20security%20partners]

6

OFFICIAL (OPEN)

1

COMMITMENT

Through contributing to peace support operations and humanitarian assistance and disaster relief (HADR) missions

Some examples of MINDEF/SAF peace support operations & HADR missions:

➤ **Airlift support to deliver aid supplies to communities affected by Tropical Storm Kristine**

26 Oct 2024: RSAF C-130 deployed to Philippines to aid humanitarian efforts after Tropical Storm Trami.

➤ **Supporting flood relief efforts in Australia**

6 Feb 2025: SAF provided relief to civilians affected by the flood by supplying transport personnel and emergency supplies.

➤ **Providing humanitarian aid to Myanmar earthquake victims**

2 April 2025: RSAF deployed two C-130 transport aircrafts to deliver over 9 tonnes of humanitarian aid supplies to Myanmar.

➤ **Deploying a Medical Contingent to Egypt in Support of Gaza Relief Efforts**

16 April 2025: SAF and MOH deployed a contingent to provide medical care to Palestinians and other civilians from Gaza who were being treated in Egypt.

[Notes for Commanders / Facilitators]

- The SAF's commitment extends beyond national defence, as we also contribute actively to peace support operations and humanitarian assistance around the world.
- In 2025, the SAF provided airlift support to communities hit by Tropical Storm Kristine (international name: Trami) in the Philippines, and supported flood relief efforts in Australia by supplying critical aid and manpower.
- We also delivered humanitarian aid to victims of the Myanmar earthquake, and deployed a Medical Contingent to Egypt, working alongside MOH to care for civilians affected by the Gaza conflict.
- These missions reflect that the SAF seeks to contribute, within our means and in useful ways, towards multinational efforts to maintain international security.

2

INNOVATION

Through enhancing our capabilities

SAF2040: A Future-Ready SAF

Singapore takes a long-term approach to defence spending, ensuring that the SAF is poised to respond effectively against the entire spectrum of potential threats.

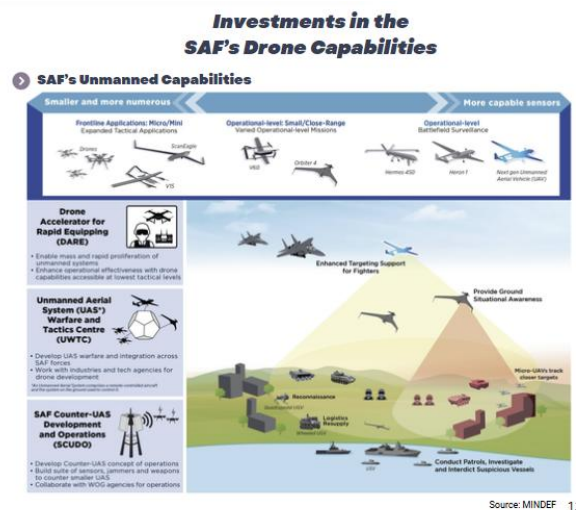

[Notes for Commanders / Facilitators]

[For this slide, Commanders / facilitators may profile the SAF's deterrence edge and full spectrum capabilities using your own examples. You may also like to use the following talking points.]

7

OFFICIAL (OPEN)

- As the threat landscape evolves, the SAF continues to make long-term investments in both conventional warfighting and hybrid capabilities across **land, air, sea, and digital domains** to guard against evolving threats.
- The SAF is not relatively large but it operates modern, state-of-the-art platforms to address a spectrum of security challenges. This was made possible through steady defence investments over the years.
- To meet future challenges head-on, the SAF must continue to evolve which includes the use of digitalised fighting and support platforms, and a shift towards a greater use of unmanned vehicles and training simulators.
- By 2040, the Army will be more manoeuvrable, able to strike faster and harder, with Next Gen Infantry Battalions and new Armoured Tracked Carriers (ATC) and Howitzers. The Howitzers are self-loading to shoot faster, and require 60% less manpower. Our Army soldiers can use their own micro-UAVs for last-mile surveillance.
- The Navy, with Multi-Role Combat Vessels, Invincible-class submarines and Unmanned Surface Vessels (USVs), will be able to see and strike further at sea and in the depths to better protect our waters. The USV is fully unmanned and automated. It will patrol the Singapore Strait alongside our Littoral Mission Vessels and patrol vessels. As of 2025, our Navy ships are equipped with Close-Range Unmanned Aerial Vehicles (UAVs) to extend their range for surveillance.
- The Next Gen Air Force, with F-35As, F-35Bs, F-15SGs, and Next Gen UAVs, will be more lethal, versatile and effective to better protect Singapore's skies. The F-35As are designed for greater endurance and can carry payloads of higher capacity. They complement the F-35Bs which have short take-off and vertical landing capability.
- Threats from the digital domain are also rising in sophistication and numbers. DIS is building a digital range to replicate key infrastructure, e.g., power, water, and 5G telecommunications systems, and simulating attacks and exploring ways to defend against these attacks. The digital range will be completed in 2026. It will allow us to scale, add complexity and realism in this digital domain.

[Notes for Commanders / Facilitators]

[For this slide, Commanders / facilitators may profile the SAF's unmanned capabilities using your own examples. You may also like to use the following talking points.]

- The SAF has made sizeable investments in robotic platforms and counter-drone measures. By 2040, we will have a multi-domain unmanned architecture – spanning aerial, maritime, ground, and sub-surface platforms.
- Micro-UAVs and larger ISR drones (e.g. V60, Orbiter-4) provide real-time reconnaissance, while swarming drones and unmanned ground vehicles (UGVs) enable responsive intelligence and precision targeting.
- Unmanned Surface Vessels now patrol the Singapore straits autonomously, issuing warnings and deploying remote weapons.
- The SAF has established a dedicated Counter-UAS group deploying sensors, jammers, and neutralisation tools, complemented by a UAS Warfare & Tactics Centre in RSAF and an Army Drone Accelerator (DARE) to both leverage and defend against drones.

2

INNOVATION

Through enhancing
our capabilities

Investments in the SAF's Training Infrastructure

SAFTI City [Phase 1]

Since Oct 2024, SAFTI City Phase 1 has been available to train battalions in urban operations and homeland security.

► Realistic and challenging urban training environment.

► Features include:

- High-rise, interconnected buildings
- Multi-storey carpark
- Bus interchange
- MRT station
- Urban rubble for disaster relief training

DIVERSE URBAN BUILDING TYPES
Multi-functional training for Counter-Terrorism, Counter-Terrorism, Homeland Security and Disaster Relief

INNOVATIVE CONSTRUCTION
A state-of-the-art construction site for training in disaster relief and urban operations

UNDERGROUND
Directly connected to a realistic, interconnected urban environment

COMBINATION OF TRAINING ENVIRONMENTS
To allow configuration of the urban area network for training in urban operations

WORKED ROADS AND EXPERIENCED SCENARIOS
Enabling integrated training between battalions and troops

UNDERGROUND MESSAGE NETWORK
Enabling integrated training between battalions and troops

Enhancements to local training infrastructure

Pulau Tekong will be expanded 10km in distance to serve as The Singapore Army's second manoeuvre training area for soldiers, as well as combat vehicles, as the Army becomes increasingly platform-based.

INCREASED TRAINING SPACE

- Enhances manoeuvre training realism involving both troops and combat vehicles
- Larger land space supports multi-domain operations that integrate land, air, cyber, and electronic warfare elements
- Supports more advanced, platform-based systems such as armoured vehicles, unmanned systems, and integrated sensor-shooter networks.

Source: MINDEF, Channel NewsAsia

[Notes for Commanders / Facilitators]

- The SAF has also made sizeable investments in building infrastructure to train our servicemen and women.
- SAFTI City Phase 1 was launched in March 2025 at the SAFTI Training Area. SAFTI City provides a realistic and challenging urban training facility for the SAF, as its operational needs evolve to include a wider range of scenarios from peace to war. This advanced facility will help our soldiers to train better to conduct operations in built-up areas, including homeland security, counter-terrorism, and disaster relief operations.
- In fact, SAF and the US Army successfully conducted Exercise Tiger Balm (an integrated urban operations exercise) in SAFTI City in May 2025.

9

OFFICIAL (OPEN)

A strong SAF contributes towards Military Defence

It also supports the other pillars of Total Defence by responding to crises, safeguarding critical infrastructure, and partnering with the community to enhance national resilience.

From 25 Sep to 2 Oct 2024, over 500 polytechnic students engaged in **hands-on TD activities**, launched the **SAFRA 'I Pledge Total Defence' campaign**, and co-developed **digital TD sandbox projects** such as "ScamGuard" and "Guardians of the City II" during the Polytechnic Forum 2024.

This year's **Exercise SG Ready 2025**, co-led by MINDEF and the Energy Market Authority, focused on **strengthening national readiness against power grid disruptions** caused by cyber attacks. Over 1,000 organisations took part. Several **power, food and water disruptions** were also simulated across the island, including a "blackout" of over 30 prominent buildings.

15

[Notes for Commanders / Facilitators]

- A strong SAF anchors military defence. It also supports the other pillars of Total Defence by responding to crises, safeguarding critical infrastructure, and partnering with the community to enhance national resilience.
- This year's Exercise SG Ready 2025, co-led by MINDEF and the Energy Market Authority (EMA), focused on strengthening national readiness against power grid disruptions caused by cyber-attacks. Over 1,000 organisations took part in a nationwide simulation of cyberattacks and disruptions to power, water and food systems, including a blackout affecting more than 30 major buildings.

Strong participation from MINDEF/SAF in Exercise SG Ready

PHISHING DRILL

CIVIL EMERGENCY WHICH TRIGGERED FIRE DRILL

POWER DISRUPTIONS DUE TO CYBER ATTACK

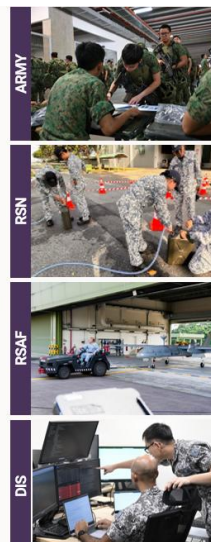

WATER DISRUPTIONS

During the exercise, buildings at MINDEF HQ experienced a series of simulated power disruptions due to a simulated cyberattack, as well as a civil emergency which triggered a fire drill.

A phishing drill was also conducted by SAF C4 Command to strengthen the SAF's cyber resilience against social engineering attacks and maintain vigilance across MINDEF/SAF.

Personnel mobilisation exercises were held by the Singapore Armed Forces (SAF) at Selarang Camp and Mural Camp.

SAF units tested their business continuity plans in simulated power outages, clarified their roles and responsibilities, and identified areas of improvement.

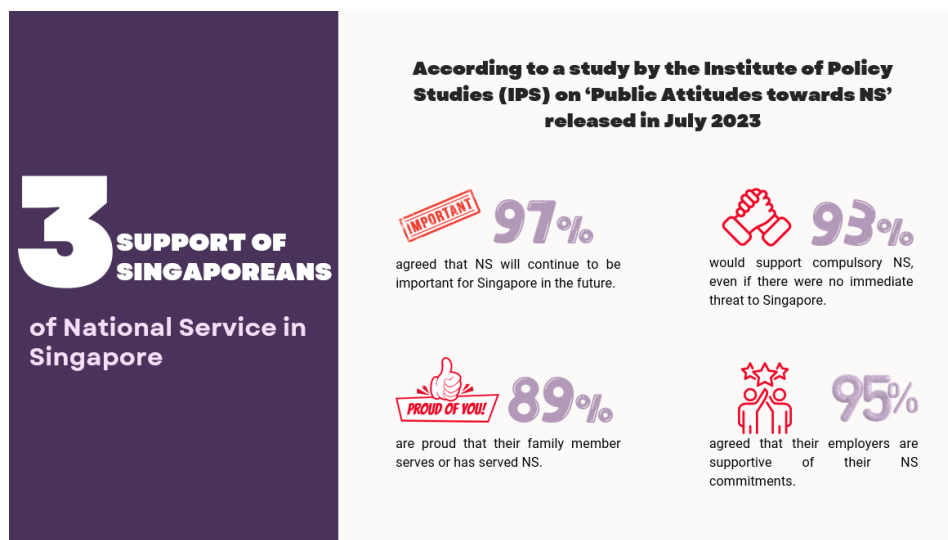

[Notes for Commanders / Facilitators]

[Commanders / facilitators may reflect and recap on what your own unit did to support ESR 2025, and add in your own examples. You may also like to use the following talking points.]

- Exercise SG Ready also saw strong participation from MINDEF/SAF.

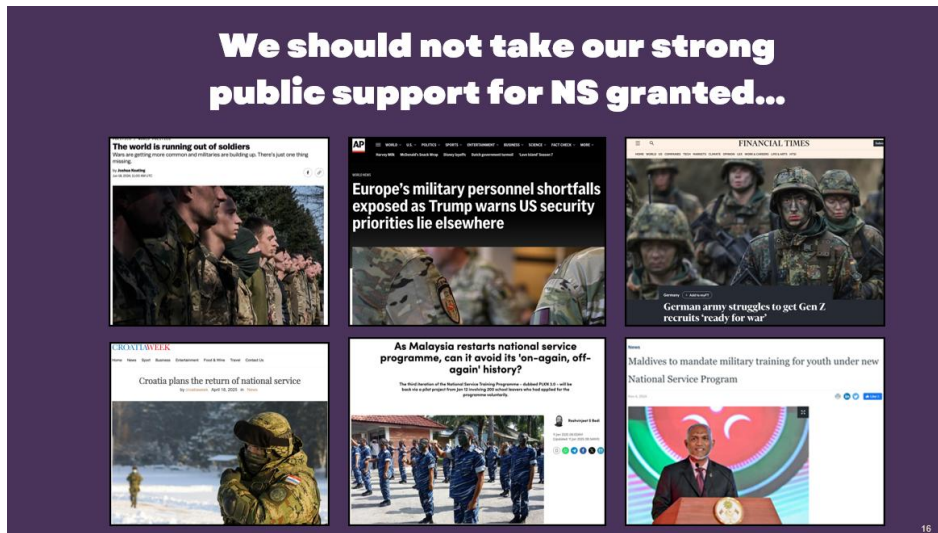

OFFICIAL (OPEN)

- At MINDEF HQ, staff responded to simulated cyberattacks and civil emergencies, including power outages and fire drills.
- The SAF C4 Command ran a phishing drill to strengthen cyber vigilance and guard against social engineering threats.
- Mobilisation exercises at Selarang and Murai Camps tested our operational readiness on the ground.
- Across the SAF, units rehearsed business continuity plans, clarified roles, and identified gaps, reinforcing our ability to stay mission-ready under stress.
- Such efforts are only effective with strong support from everyone, whose trust and cooperation underpin our nation's resilience.

[Notes for Commanders / Facilitators]

- A 2023 study by the Institute of Policy Studies (IPS) revealed that 97% Singaporeans believed NS will remain vital for our nation's future, and 93% supported keeping it compulsory.
- 89% said they felt proud when a family member serves or has served NS, reminding us that every serviceman represents more than himself.
- 95% shared that their employers supported their NS commitments, reflecting the broad societal recognition of NS as a national duty, not a personal burden.
- These numbers reflect a strong mandate — but also a quiet responsibility: to serve with pride, knowing the nation stands behind us.

[Notes for Commanders / Facilitators]

- Our strong commitment to and support for the SAF and NS contrast with the situation around the world.
- While many countries recognise the value of a NS system, they are struggling to implement and/or sustain a NS system effectively because public support is lacking. Most places which diluted their conscription systems have come to regret their decisions and tried to reverse course, many unsuccessfully.
- That said, we should not take the strong public support for NS for granted. Because behind every soldier, there is a nation's trust, and with every generation, that trust must be earned anew.
- It is good that we introduced NS in our early days of independence, and have maintained it consistently over the decades. We must continue to work at it. Or else, once fallen, it is nearly impossible to 'put NS together again', and by then, it may be too late.

Hence, we must continue to strengthen NS...

<h3>1 MAXIMISING CONTRIBUTIONS</h3> <p>For example,</p> <ul style="list-style-type: none"> • Redesigning jobs, leveraging technology and revamping the Physical Employment Standards (PES) system • On-the-job training such as Work-Learn Schemes <p>Selected NSFs to undergo work-learn scheme for 4 years while serving in SAF's new Digital and Intelligence Service</p>	<h3>2 IMPROVING NS EXPERIENCE</h3> <p>Leveraging data and technology to reduce administrative load and better support our servicemen through their NS journey.</p> <p>Enhanced OneNS App The OneNS app offers smoother access to NS services, including ICT deferment, real-time mobilisation updates, and easier use of NS credits.</p> <p>New CMPB Opening progressively from mid-2025, the new CMPB will streamline NS administrative and medical processes – including fitness, screenings, and specialist care, while also serving the community with public exercise facilities, childcare, and dining options.</p>	<h3>3 STRENGTHENING RECOGNITION</h3> <p>Recognising the contributions and sacrifices of our servicemen and their families, and supporting them in their lifecycle needs.</p> <p>NS allowance to increase from 1 July 2025 NSFs will receive a 4–5% increase in monthly allowance, based on rank.</p> <p>\$200 in LifeSG cash credits Digital credits that can be used at over 100,000 online/physical stores.</p> <p>All past & present NSmen to get \$200 in LifeSG credits: Budget 2024</p>
--	---	---

19

[Notes for Commanders / Facilitators]

- Today, NS is a key national institution and a part of our way of life.

OFFICIAL (OPEN)

- Our national servicemen across the SAF form the backbone that keeps Singapore safe and strong.
- We recognise the efforts and contributions of our servicemen and women both present and past. We want to thank and show our appreciation by continuing to make efforts to strengthen the NS system, improve our servicemen's NS experience and better support them.

There are three main key thrusts:

- First, to maximise contributions, the SAF is redesigning jobs, leveraging technology and revamping the Physical Employment Standards (PES) system to better deploy servicemen and women to a wider range of operational roles; for those who are keen to take up on-the-job-training, we provide e.g. Work-Learn schemes in areas such as cybersecurity and Artificial Intelligence, that allow selected servicemen to attain a ITE or Polytechnic diploma, or partial university credits, while undergoing military training and applying their skills to NS and Regular service;
- Second, to improve the NS experience, the SAF is leveraging data and technology to reduce administrative load for national servicemen and women. For example, the enhanced oneNS app, continually enhanced based on servicemen's feedback, now offers smoother access to NS services, including ICT deferment, real-time mobilisation updates for all SAF units, and easier use of NS credits on the go. Opening progressively from mid-2025, the new CMPB will be a one-stop centre streamlining NS administrative and medical processes, including fitness, screenings, and specialist care, while also serving the community with public exercise facilities, childcare, and dining options.
- Third, we recognise the contributions and sacrifices of our servicemen and women. Hence, we are providing them with some credits and discounts to help with their lifecycle needs such as the \$200 LifeSG cash credits. There is also the We Support NS campaign where merchants across Singapore offers exclusive discounts and promotions for our servicemen.
- Apart from relying on organisational and policy interventions, some questions to think about:
 - How can you, your friends or family, express appreciation for your fellow servicemen/women?
 - How have you supported someone else in their NS journey? How can this effort be scaled or extended to benefit more individuals or to strengthen the NS system?

“ Today, 60 years on, the SAF stands as a formidable force.

We respond readily and effectively when called upon to protect Singapore's interests and the people of Singapore, and engage in a wide range of local and overseas operations around the world and around-the-clock...The SAF will continue to innovate and reinvent ourself to keep Singapore ahead of evolving threats.

”

Senior Minister of State for Defence,
Mr Zaqy Mohamad

Speaking at the launch of the SAF60 Exhibition Showcase,
2 April 2025

[Notes for Commanders / Facilitators]

- We determine our own fate and are ourselves responsible for our defence and future.
- A strong SAF will continue to be the most effective deterrence against potential aggressors.
- We must remember to never take our peace for granted.
- While the SAF provides Singapore's core defence capabilities, Singaporeans can also play a part in the Total Defence of Singapore.
- Each and every one of us can help Singapore stay strong, prepared and resilient for any crisis or disruption.

CONCLUSION

A strong SAF stands operationally ready to defend Singapore through...

Engaging in realistic and effective training & strengthening diplomatic ties

Enhancing our capabilities

Contributing to value during peace

SUPPORTING TOTAL DEFENCE
TOTAL DEFENCE
TOTAL DEFENCE

Supporting Total Defence

Strengthening NS

29

[Notes for Commanders / Facilitators]

- Conclude the presentation by going through the five points in brief with the audience.

**Don't forget to catch
the SAF60 Exhibition Showcase!**

- Launched at Singapore Discovery Centre on 2 Apr, the exhibition showcases the SAF's transformation journey in the past six decades, and highlights the experiences of servicemen and women who have contributed to Singapore's defence.
- In the following months, it will be displayed at over various locations around Singapore. Visit defencecollectivesg.com/saf60-sdc-2025 for the latest on exhibition dates and venues!

21

[Notes for Commanders / Facilitators]

- The SAF60 exhibition showcase, themed “Defending Our Home, Securing our Future”, traces the SAF's transformation journey and features a collection of human-interest stories and experiences of past and present servicemen and women.
- Encourage the audience to head down to the SAF60 roving exhibitions at various public locations.
- It is currently at SAFRA Choa Chu Kang until 27 Jun 2025. The next one would be at SAFRA Punggol from 1-7 Sep 2025.

#hormatSAF
